

8/1/2013

Dear DinarAlert member,

I'm Admin-Bob, founder and owner of DinarAlert website. I would like to take a minute to ask you a personal question...

Since you are an investor in the country of Iraq, what does it mean to you to get honest, factual information about your investment? What would you pay to have your own personal contact in Iraq researching and informing you on a daily basis? What would it cost to have someone live in Iraq under the current conditions, to watch what is going on, to listen to what is being said, and to report it directly to you each weekday? Could you put a value on that kind of information? \$50, \$100 month or more?

What if I said... I have done that for you at a fraction of that cost.

I have hired an individual to report each weekday in written form so you can know the facts, the truth about what is happening each day from within Iraq. And I have done this for less than .45 cents a day (\$9.95 mo). That's right, for less than a cup of coffee per day, you can get an honest, factual report direct from Iraq that contains a news summary that is tailored specifically to the Iraqi Dinar investor. Would this be exciting to you?

I call it.... **DinarAlert Iraqi Television Transcription Service or ITTS**

I believe, if you're an Iraqi Dinar investor, there is nothing more significant to your investment than to learn what is being said directly to the Iraqi people each and every day. That is why I started ITTS.

Take a look at the sample transcripts on the website, see for yourself what ITTS is all about. Registration is month to month with no long-term commitments.

I think you will find that ITTS is a unique, informative, detailed and insightful, and most of all...factual tool to help you understand this investment beyond all other sources of information.

Sincerely,

Admin-Bob
